

CLEANING AND MAINTENANCE – Paper and Fabric Backed Vinyl Wallcoverings

Our Paper Backed Vinyl Wallcoverings and Fabric Backed Vinyl Wallcoverings have superior cleanability from which dirt and all domestic water-based stains may be cleaned from the front face with a sponge or a soft brush and mild detergent or a mild abrasive. Oils, fats and solvent based stains can also be removed if tackled immediately after contamination.

Best practices

If using soapy water, wipe off with clean water and ensure the surface is dry, especially along the skirting. Always wash from the bottom upwards. Top- down will cause runs on a dry surface which will stain. If in doubt do a trial in an inconspicuous area. The use of strong bleach or abrasive powders is not recommended.

Cleanability Criteria for our Paper and Fabric Backed Vinyl Wallcoverings defined by the BCF and approved by the BSI

<i>Cleanability Rating</i>	<i>Criteria</i>
Spongeable	A wallcovering from which adhesive may be wiped from the surface with a damp cloth or sponge at the time of hanging, without causing visible damage, providing it is done while the adhesive is still damp
Washable	A wallcovering from which dirt and most domestic water-based stains may be cleaned carefully with a damp or wet sponge or cloth and soapy water.
Fully / Extra Washable	A wallcovering from which dirt and some domestic water-based stains may be cleaned carefully with a damp sponge or cloth and soapy water. Oil, fats, and solvent based stains are not expected to be removable, but some greasy stains can be removed if action is taken immediately.
Scrubbable	A wallcovering with superior cleanability from which dirt and most domestic water-based stains may be cleaned with a sponge, cloth or soft brush and a mild detergent or a mild abrasive. Oils, fats, and certain solvent-based stains can also be removed if tackled immediately.

Please always check cleanability information as displayed on Technical Data Sheet for exact cleanability rating.
